SMART LOCK & ACCESS TECHNOLOGIES

SMART LOCKS / CABINET LOCKS / ACCESS DEVICES/ SECURITY HARDWARE

ONLOI

A decorative graphic consisting of a grid of vertical bars. The bars are arranged in 10 rows and 15 columns. Each bar has a different height and width, creating a rhythmic, abstract pattern. The bars are light gray and stand out against the dark blue background.

INSTITUTIONAL

Life is safer with Onloi...

Onloi offers smart access control with the smart lock hardware and software it produces and opens the door to a keyless world.

Bizi Tanıyın

Onloi, yıllar boyunca kazandığımız elektronik üretim ve iot yazılım tecrübemiz sonucunda daha iyi, daha hızlı, daha pratik ve anahtarsız bir akıllı yaşam sunmak için hayata geçirdiğimiz markamızdır.

Şehir hayatında eve, arabaya, otoparka, izinli girilen her yere erişimin karmaşık ve zorlayıcı bir hale geldiği noktada teknolojinin imkanlarından yararlanarak daha kullanışlı bir sistem kurmayı hayal ettik. Bu hayalin sonunda dolaplar, ev kapıları, ofis kapıları, turnike ve bariyer sistemleri için ürettiğimiz elektronik donanımları IoT mobil yazılımlarla birleştirerek, erişim paylaşımını kolaylaştırıp, anahtarları ortadan kaldıracağımız bir çözüm sunduk.

Onloi olarak geldiğimiz bu noktada yerli mühendislerle ürettiğimiz donanım ve yazılımların hem Türkiye’de hem de dünyada kaliteli olarak tanınıp, yüksek oranda kullanılmasının haklı gururunu yaşıyoruz.

Firmamız bünyesinde bulunan yüksek kapasiteli SMD dizgi hattımızla günde 1000 adet donanım üreterek müşterilerimize hızlı ve etkili tedarik sağlayarak geçiş kontrol sektöründeki büyümemiz ivmeyle devam etmektedir.

Hedefimiz akıllı yaşam ve erişim teknolojilerinde maliyet, kalite, tasarım ve ürün ömrü konusunda en optimum ürettiğimiz ürünlerimizi dünyada bilinen bir marka haline getirmektir.

About Us

Onloi is a brand that we have implemented to offer a better, faster, more practical and keyless smart life as a result of our electronic production and IOT software experience gained over the years.

We dreamed of establishing a more useful system by taking advantage of the possibilities of technology at a point where access to the house, car, parking lot, anywhere with permission becomes complex and challenging in city life.

In this way, we have offered a solution that will facilitate access sharing and eliminate the keys by combining the electronic hardware we produce for cabinets, house doors, office doors, turnstiles and barrier systems by IOT mobile software.

As Onloi, we are proud of the fact that the hardware and software we produce with local engineers are recognized as high quality both in Turkey and in the world and are used at a high rate.

Our growth in the access control sector continues with momentum by producing 1000 pieces of hardware per day with our high-capacity SMD typesetting line within our company, providing fast and effective supply to our customers.

Our Basic Principles

Montaj Gerektirmeyen Donanım
No Assembly Hardware

Hızlı Geçiş Kontrol
Quick Access Control

Mobil Kontrol
Mobile Control

Etkin Teknik Çözüm
Effective Technical Solution

Yüksek Teknoloji
High Technology

Neyi Hedefliyoruz?

Teknolojiyi kolay ulaşılabilir, kolay üretilebilir, kolay uygulanabilir ve kişiselleştirilebilir hale getirip, işlerin kontrolünü ele geçiren dijital takip teknolojilerini hayatının her alanına yaymak için varız. Bu amaç doğrultusunda yeni otomasyon teknolojilerinde yaratıcı donanım çözümleri üretmek ve yerli bir teknoloji firmasını dünya markası haline getirmek için çalışıyoruz.

What We Aim?

We are here to access technology which is obtainable as easily applied, easily customabilized, easily produced and to make more easier control of digital jobs of tracking in the aspect of everyday life issues. In accordance with this purpose, we aim to make our domestic company to find a productive-creative hardware solutions in the fields of new automation technology systems.

ARGE ve Sürdürülebilirlik

Sürdürülebilir büyüme stratejisi ile sürekli ileri teknolojiye yatırım yapan ONLOI olarak; tasarım, test ve analiz imkanlarımızla inovatif ürünler ortaya çıkarıyoruz. Temel yeterliliklerimizden olan teknik bilgi birikimimiz ve sayıları gitgide artan mühendislerimiz ile gece gündüz yüksek performanslı ve eşsiz ürünler üretmek için çalışıyoruz. ARGE'ye olan inancımızla var olduk ve kazanımlarımızı ARGE'ye aktararak var olmaya devam edeceğiz.

R&D and Sustainability

We create innovative products with design, testing and analysis facilities by the strategies of sustainable growth model. Also this brand has invested huge amounts of efforts to the emerging new technologies in all over the world. With the functioning technical know- how one of our core competencies follow up the advances. Which is our belief is to research and development about RFID leads to investment in all our earnings to the increasing number of engineers day by day.

Sertifikalarımız

Çalışmalarımızın en güzel neticesi kalitelerimizin ve sistemlerimizin onaylanması. Kalite çıtamızı her geçen gün daha yükseğe çıkararak sorunsuz ürünler üretmek için varız.

Certificates

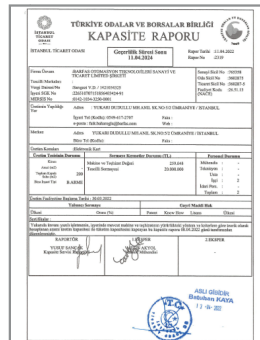

The bestreturn of our work is to approved our systems and qualities by our customers. Tor ise up our quality value, we strive to produce products that do not cause problems in usage areas.

ONLOI

PRODUCTS

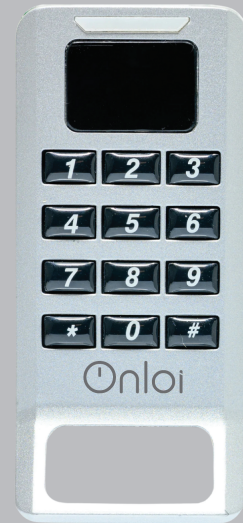

Meet Onloi to make your life easier

We provide app-supported access control with cutting-edge smart lock hardware. You're invited to experience our high-quality devices, developed by our local engineers.

Smart Door Locks

- Exterior Door Locks
- Hotel Door Locks
- Office-Room Door Locks

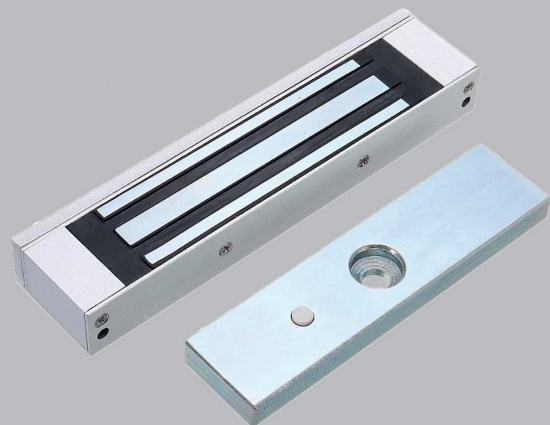

Electronic Cabinet Locks

- Electronic Cabinet Locks
- Plastic Cabinet Locks
- Smart Safety Deposit Boxes

Access Devices

- Smart Intercoms
- Card and QR Readers
- Parking Lot Equipment
- RFID Cards

Safety Equipment

- Alarm Systems
- Control and Sensors
- Magnetic Locks
- Automatic Door Motors

Smart Door Locks

Don't miss out on the innovations brought by the internet. Use smart locks on your home, office, and bedroom doors to unlock doors and manage your guests without having to carry a key.

LONG BATTERY LIFE

Thanks to the power saving mode, you can use it for long periods without changing batteries.

TUYA & ONLOI APP

You can use it with Onloi or other smart home applications and manage your security.

With our locally produced smart locks, your homes and workplaces are safer and more comfortable to control than ever before.

Smart locks connect to your home internet modem using a battery, motor, and Wi-Fi transmitter. Mobile app integration allows for keyless operation and unlocking from anywhere. You can also use them offline using fingerprint, card, and password functions.

MOTORIZED OUTSIDE DOOR LOCK

OK0110

It is a high-security product that can be easily installed on all types of doors, including steel exterior doors, and you can grant access from anywhere with the support of the TUYA mobile application.

TECHNICAL SPECIFICATIONS

6 x 14,5 cm TUYA APP BATTERY / CRI23A X3

STEEL WITH CYLINDER BARELL DOOR HANDLE

OBG0285

Thanks to the one-touch fingerprint reader, you can quickly log in and out. You can also control it remotely via Wi-Fi using the mobile app, preventing potential hazards.

TECHNICAL SPECIFICATIONS

6 x 14,5 cm TUYA APP BATTERY / CRI23A X3

SMART DOOR LOCK

OBG0286

Give your doors a stylish look with its unique and slim design. You can easily log in by setting a password, card or fingerprint with the support of the mobile application.

TECHNICAL SPECIFICATIONS

24 x 6 cm TUYA APP BATTERY / 4 Adet AA

ALUMINUM SMART LOCK WITH OUTDOOR HOLDING

OK0130

Thanks to its stylish design and waterproof structure, you can easily use it in areas such as building entrances and garden gates, and grant access to your guests via the mobile application.

TECHNICAL SPECIFICATIONS

5,8 x 16,6 cm TUYA APP BATTERY / 4 X AA

HOTEL CARD DOOR LOCK

OBG0250

Its robust front panel is resistant to surface water and dirt. Its easy installation and use provide convenience. It's an independently operating electronic lock with proximity technology.

TECHNICAL SPECIFICATIONS

7,8 x 24 x 1,5 cm OFFLINE BATTERY / 4 X AA

SMART DOOR LOCK (FINGERPRINT / PASSWORD / CARD)

OK0310

With this domestically produced product, you can access your home, room, or office. Furthermore, with mobile app support, you can control it from anywhere in the world.

TECHNICAL SPECIFICATIONS

24 x 6 cm TUYA APP BATTERY / 4 X AAA

SMART DOOR LOCK WITH FACE RECOGNITION

OK0321

It's a product that brings technology to your buildings with its unique features. You can use facial recognition, card, and password features to provide mobile app-controlled access to your home and office doors.

TECHNICAL SPECIFICATIONS

42,4 x 7,8 cm TUYA APP RECHARGEABLE

FINGERPRINT AND ENCRYPTED DOOR HANDLE

OBG0282

You can secure your entry and exit thanks to the encryption feature and one-touch fingerprint reader.

TECHNICAL SPECIFICATIONS

3 x 6,5 cm OFFLINE BATTERY / 4 X AAA

SMART GLASS DOOR LOCK (WITH MOBILE APPLICATION)

OK0350

This product is designed specifically for those who want to give their offices a stylish and technologically advanced look. With card, password, and fingerprint features, you can control access to your office.

TECHNICAL SPECIFICATIONS

7,5 x 2,5 cm TUYA APP BATTERY / 4 X AA

Electronic Cabinet Locks

Access to your multiple and single-use cabinets is easier and faster with our new generation touch and key electronic cabinet locks.

CARD & PASSWORD USE

Speed up your access to lockers by using either a card or a password.

STYLISH DESIGN

Its durable metal body ensures long-lasting, high-quality use.

Get a modern and stylish look in many places such as locker rooms, SPAs, schools, hospitals, and safes.

You can use it for years. Thanks to its long battery life, it prevents damage for years, such as losing keys, occupying lockers, and gives your spaces a stylish look. With electronic combination locker locks, you can use it in your dressing room.

METAL CARD & COMBINATION CABINET LOCK

OBG0351

Its strong front panel is resistant to surface water and dirt. It has a durable surface made of stainless steel. It has multiple encryption features for multiple users.

TECHNICAL SPECIFICATIONS

BATTERY / 3 X AA

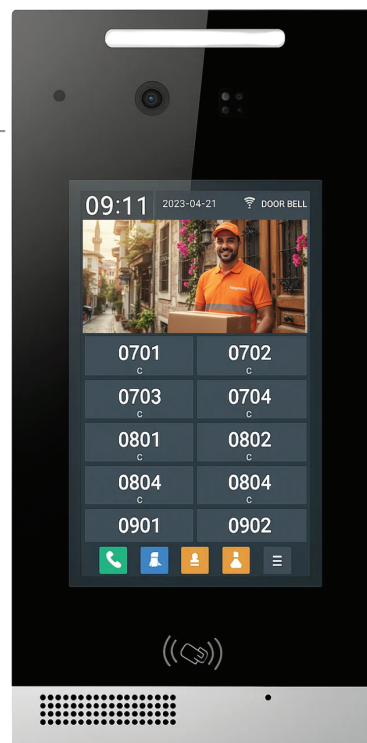

Access Devices

Managing entry and exit in your institution is easier than ever before. With our customizable hardware that is compatible with new technology, people are in your control.

MOBILE APPLICATION SUPPORT

Give your guests access to video calls from anywhere in the world via a mobile app.

INSTANT DATA COMMUNICATION

You can perform uninterrupted instant data verifications via TCP/IP or serial port.

Our smart intercom, featuring an 8" HD screen and integrated with the Tuya app, provides superior security with facial recognition technology, high-speed connectivity, and biometric sensors. Its manageable and monitorable structure offers users an advanced control and security experience.

The primary goal of our access control systems is to develop reliable and user-friendly solutions compatible with new technologies. With our innovative R&D approach, we design integrated systems to meet the security and efficiency needs of businesses. Quality, durability, and ease of use are at the forefront of all our products. Our model, which stands out with its 8-inch HD touchscreen, digital camera, and high-quality aluminum panel, along with its multiple login support and energy-saving structure, reflects this approach. With Tuya ID integration and smart connectivity options, we offer businesses modern, flexible, and sustainable solutions.

STANDALONE FINGERPRINT AND CARD READER

OBG0112

You can save your transactions and carry them out in a short time. With its high capacity memory, you can perform your transactions quickly and with high quality fingerprint reading.

TECHNICAL SPECIFICATIONS

17 x 13 x 3 cm Wiegand / USB / ethernet 5V DC / 1A

MOBILE APPLICATION SUPPORTED CAMERA INTERPHONES

OE0310

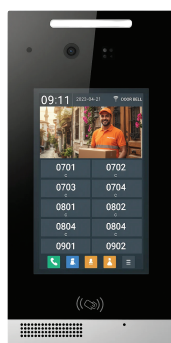

Compatible with Android and iOS. When the doorbell rings, the camera starts sending real-time images and calls to your mobile phone.

TECHNICAL SPECIFICATIONS

4,5 x 8,2 x 2,4 cm Wiegand / WiFi BATTERY / 3 X AA

SMART INTERCOMPONE WITH TUYA APPLICATION INTEGRATED SCREEN

OBG0121

It can be easily accessed using application methods. It has a bright light compensation feature. It provides stable and clear image transfer with face recognition, password, card and mobile digital camera, night vision and

TECHNICAL SPECIFICATIONS

32 x 14,3 x 4,8 cm Ethernet/ WiFi 12 V

WALL MOUNTED QR CODE & MIFARE CARD READER

OBG0128

Thanks to its powerful reading capacity and wide viewing angle, it quickly reads your Mifare cards. It's very easy to install and use.

TECHNICAL SPECIFICATIONS

8,5 x 8,5 cm Wiegand / WiFi 12 V

METAL ENCRYPTED PROXIMITY CARD READER

OBG0330

It provides ease of use by scanning your card without requiring physical contact. It can be integrated with staff, visitor, student, hotel, membership, police, and hospital card systems.
